

# Protecting each other as we repair your vehicle

**1st**

Before we enter the Vehicle - Using RBL Isopropyl Disinfectant/Sanitizer we wipe down the drivers cabin thoroughly focusing on Keys & Push Start Button, Seat, Steering Column, Stick Shifter, Hand Brakes, Arm Rest, Console, Dash and Door handles.

**ALCOHOL WIPES** (Part No. 19S)  
100 PRESATUREATED WIPES TO  
DISINFECT & SANITIZE SURFACES

- 85% Isopropyl Alcohol
- 15% DI Water
- Disinfects & Sanitizes Viruses, Germs, Bacteria On Surfaces That Can Lead to Illness

**2nd**

After Disinfecting/Sanitizing we wrap all touch points in protective plastic. (Seats, Floor Matt, Steering Wheel, Shifter, Parking Brake)

The goal is **ZERO CONTACT**

**5 IN 1 CAR COVER PROTECTION KIT**  
Part No: 461

**FIVE PLASTIC COVERS TO PROTECT:**

**3rd**

**BE SAFE WITH  
ZERO  
CONTACT!**

Remove and dispose ALL five protective pieces of plastic. Using RBL Isopropyl Disinfectant/Sanitizer we wipe down the drivers cabin thoroughly focusing on Keys & Push Start Button, Seat, Steering Column, Stick Shifter, Hand Brakes, Arm Rest, Console, Dash and Door handles.
